[Approved by Governor September 18, 2020. Filed with Secretary of State September 18, 2020.]

LEGISLATIVE COUNSEL'S DIGEST

SB 820, Committee on Budget and Fiscal Review. Education finance.

(1) Existing law requires the State Department of Education to develop, on or before December 31, 2021, a standardized English language teacher observation protocol for use by teachers in evaluating a pupil's English language proficiency. Existing law requires a local educational agency to assess the English language development of each pupil in order to determine the pupil's level of proficiency. Existing law requires that assessment to be conducted annually during a 4-month period after January 1.

This bill would extend the date for completion of the English language teacher observation protocol until December 31, 2022. The bill would extend the time period for conducting the English language development assessment in the 2020-21 school year by 45 calendar days and would require a local educational agency to screen new pupils at the time of enrollment to informally determine English learner status. By requiring local educational agencies to screen newly enrolled pupils to determine English learner status, the bill would impose a state-mandated local program.

(2) Existing law requires a county superintendent of schools to annually submit a report, at a regularly scheduled November board meeting, to the governing board of each school district in the county, the county board of education, and the county board of supervisors describing the state of schools in the county that meet specified criteria for low performance. Existing law requires the county superintendent of schools, or a designee of the county superintendent of schools, to visit those schools at least annually for purposes of developing that report.

This bill would authorize a county superintendent of schools, during the portion of the 2019-20 school year in which schools were closed due to the COVID-19 pandemic and the 2020-21 school year, to rely on information obtained only through means other than a physical visit to the schoolsite for purposes of that report, as provided. The bill would waive the requirement to annually visit those low-performing schools from March 2020 to June 2021, inclusive, during the period of time the school is not offering in-person instruction.

(3) Existing law requires the Superintendent of Public Instruction to reimburse contracting agencies for certain state-subsidized childcare programs from July 1, 2020, to June 30, 2021, inclusive, due to the ongoing impacts of the COVID-19 pandemic if the contracting agency's program is open and offering services throughout the 2020-21 program year or closed due to a public health order.

This bill would also require the Superintendent to reimburse contracting agencies for the ongoing impacts of the COVID-19 pandemic if the contracting agency's program is operated on the campus of a local educational agency closed due to a public health order and the local educational agency has required the program to close, as provided.

(4) Existing law establishes the California School Finance Authority and authorizes the authority to issue revenue bonds to finance projects or working capital for a single or several participating parties, defined as a school district, charter school, county office of education, or community college district that undertakes the financing or refinancing of a project or of working capital.

This bill, if bonds issued for purposes of borrowing to fund several financings of working capital for several participating parties under a single resolution remain outstanding, would prohibit each of those participating parties from declaring bankruptcy.

(5) Existing law requires the governing board of a school district, before the sale, lease, or rental of any excess real property, to appoint a district advisory committee to advise the governing board in the development of districtwide policies and procedures governing the use or disposition of excess property.

This bill would exempt from that requirement, until July 1, 2024, the sale or lease of surplus real property that has not previously operated, or was not constructed to be operated, as an early childhood education facility or a school for elementary and secondary instruction.

(6) Existing law requires, commencing April 1, 2017, a local educational agency that receives any of specified funds relating to school facilities projects to annually report, for auditing purposes, a detailed list of all expenditures of state funds and the local educational agency's matching funds for completed projects. Existing law requires the department to provide a copy of the audit to the Office of Public School Construction. Under existing law, if the audit identifies funds that were not expended in accordance with specified requirements, the department is required to recover those funds from the local educational agency, as provided.

This bill would instead require the auditor to file the audit with the Controller within 60 days of its completion. The bill would require the Controller, within 60 days of receipt of the audit, to provide a copy of the audit to the department and to notify the Office of Public School Construction of any audit findings. The bill would require the executive officer of the Office of Public School Construction, if the audit identifies funds that were not expended in accordance with specified requirements, to recover those funds from the local educational agency.

(7) Existing law appropriates \$282,237,000 from the General Fund to the Controller in the 2019-20 fiscal year for allocation to school districts and community college districts for the purpose of reducing the outstanding balance of the minimum funding obligation set forth in Section 8 of Article XVI of the California Constitution in specified fiscal years. Existing law allocates \$149,059,000 of that amount to the San Francisco Unified School District and the San Francisco County Office of Education, as provided.

This bill would reduce the overall appropriation to the Controller for those purposes to \$266,306,000 and would reduce the allocation to the San Francisco Unified School District and the San Francisco County Office of Education to \$133,128,000.

(8) Existing law requires apportionment calculations for a local educational agency and related calculations for the 2020-21 fiscal year to be based on the local educational agency's average daily attendance in the 2019-20 fiscal year.

This bill would make a local educational agency that meets specified requirements eligible for an apportionment calculation for the 2020-21 fiscal year based on growth in the local educational agency's actual enrollment in the 2020-21 fiscal year, as provided.

(9) Existing law requires the governing boards of school districts, county boards of education, and charter schools to adopt a local control and accountability plan and annual update to the local control and accountability plan. Existing law, for the 2020-21 school year, waives the requirement to adopt a local control and accountability plan and instead requires the governing boards of school districts, county boards of education, and charter schools to adopt a learning continuity and attendance plan, as provided.

Existing law requires each school district, county office of education, and charter school to develop by July 1 of each year a summary document, known as the local control funding formula budget overview for parents, developed in conjunction with the local control and accountability plan. Existing law requires the Superintendent, subject to approval by the executive director of the State Board of Education, to develop a template for the local control funding formula budget overview for parents.

This bill would require the Superintendent, subject to approval by the executive director of the state board, to update the template and instructions for the local control funding formula budget overview for parents by September 15, 2020, to reflect alignment with the learning continuity and attendance plan, as provided.

(10) Existing law authorizes any person 16 years of age or older and certain other persons to have their proficiency in basic skills taught in public high schools verified according to criteria established by the department. Existing law requires the state board to award a certificate of proficiency to persons who demonstrate that proficiency. Existing law requires regular examinations for that purpose to be held once in the fall semester and once in the spring semester of every school year.

This bill would instead require those examinations to be held at least once in the fall semester and at least once in the spring semester of every school year. The bill would require those examinations to be held in the 2020-21 school year only if they can be administered in accordance with state and local public health orders, as determined by the Superintendent.

(11) Existing law provides for the adoption and selection of instructional materials for use in elementary and secondary schools, and specifies that instructional materials may include technology-based materials. Existing law defines "technology-based materials" for purposes of those provisions, and specifies that technology-based materials include, among other things, software programs, video disks, compact disks, and databases, but do not include the electronic equipment required to make use of those materials, except as specified. Existing law prohibits those provisions from being construed as authorizing a school district to replace computers or related equipment in an existing computer lab or establish a new computer lab.

This bill would delete the provisions excluding electronic equipment from the definition of technology-based materials and the provisions prohibiting the replacement of computers or establishing a new computer lab, and would instead specify that technology-based materials also include the electronic equipment required to make use of those materials used by pupils and teachers as a learning resource, including, but not limited to, laptop computers and devices that provide internet access.

(12) Existing law establishes the California Kids Investment and Development Savings Program, under the administration of the Scholarshare Investment Board, for the purposes of expanding access to higher education through savings. Subject to moneys made available for this purpose, the program requires the board to establish one or more Scholarshare 529 accounts and make a seed deposit of at least \$25 per eligible child, as provided. The program requires the State Department of Public Health to provide the board with identifiable birth data, as specified.

This bill would require the State Department of Public Health, when providing the board with identifiable birth data, to additionally provide a child's parents' mobile telephone number and email address, as specified, and information about whether the birth mother received food during the pregnancy pursuant to the Women, Infants, and Children (WIC) program, as provided. The bill would authorize the department to provide additional identifiable birth data to the board, upon request, and upon a determination by the State Registrar, in consultation with the board, that the data is necessary for administration of the program.

(13) Existing law establishes the California Community Colleges, under the administration of the Board of Governors of the California Community Colleges, as one of the segments of public postsecondary education in this state. The board of governors consists of 16 voting members and one nonvoting member, as provided.

This bill would add the Lieutenant Governor to the board of governors as a voting member.

(14) Existing law requires the University of California, if it is able to reduce annual debt service costs by refunding, defeasing, or retiring general obligation bonds or State Public Works Board lease revenue bonds, as specified, to annually contribute an equal amount to reduce the existing unfunded liability of the University of California Retirement Plan.

For the 2020-21 and 2021-22 fiscal years, if the University of California is able to reduce annual debt service costs by refunding, defeasing, or retiring general obligation bonds or State Public Works Board lease revenue bonds pursuant to the above provisions, the bill would authorize the University of California to use the savings from refunding, defeasing, or retiring general obligation bonds or State Public Works Board lease revenue bonds to mitigate the impacts to programs and services that predominantly support underrepresented student access to, and success at, the university, and to provide for continued employment of employees without resorting to involuntary layoffs, furloughs, or reductions-in-time in the 2020-21 and 2021-22 fiscal years. The bill would make these provisions inoperative on July 1, 2023, and repeal them on January 1, 2024.

(15) Existing law, the University of California Revenue Bond Act of 1947, authorizes the University of California to issue revenue bonds, secured by a specified pledge of revenues. Existing law authorizes the University of California to pledge its annual General Fund support appropriation, less certain amounts, to secure the payment of its general revenue bonds or commercial paper associated with the general revenue bond program. Existing law authorizes the University of California to fund debt service for capital expenditures, as defined, and pay-as-you-go capital outlay projects, as defined, from its General Fund support appropriation, as specified. Existing law, until June 30, 2024, authorizes the University of California to proceed with these capital expenditures or capital outlay projects only if all work traditionally performed by persons with University of California Service Unit (SX) job classifications is performed only by employees of the University of California.

This bill, among other things, would authorize the University of California to use its support appropriation for the costs of deferred maintenance of academic facilities and related infrastructure, pursuant to existing requirements applicable to the University of California's use of its support appropriation for other defined capital expenditures. Commencing January 1, 2021, the bill would authorize the University of California to proceed with capital expenditures or capital outlay projects funded by its General Fund support appropriation only upon certification that, during the subsequent fiscal year and at all times thereafter, all cleaning, maintenance, groundskeeping, food service, or other work traditionally performed by persons with University of California Service Unit (SX) job classifications, shall be performed only by employees of the University of California at each beneficially affected facility, building, or other property, except as provided. Commencing with the 2021-22 fiscal year, and for each fiscal year thereafter, the bill would require the Department of Finance to approve new and ongoing capital expenditures or capital outlay projects only after the University of California demonstrates ongoing and continuous compliance with specified requirements, as provided.

(16) The California State Lottery Act of 1984, an initiative measure enacted by the voters as Proposition 37 at the November 6, 1984, statewide general election, authorizes a California State Lottery and provides for its operation and administration by the California State Lottery Commission and the Director of the California State Lottery, with certain limitations. Existing law, through Proposition 20, a measure

approved by the voters at the March 7, 2000, statewide primary election, requires that 50% of any increase in revenues generated by lottery games above the amount allocated for the benefit of public education in the 1997-98 fiscal year be allocated to school districts and community college districts for the purchase of instructional materials, on the basis of an equal amount per unit of average daily attendance and through a fair and equitable distribution system across grade levels.

This bill would, for purposes of the act, expressly authorize instructional materials to include, but not be limited to, laptop computers and devices that provide internet access for use by pupils, students, teachers, and faculty as learning resources.

(17) Existing law states that it is the policy of the state to make freely available to its inhabitants all state publications by distribution to libraries throughout the state. Existing law requires the State Printer to print sufficient copies of state publications, as determined by the State Librarian, and, with respect to some materials, to print a specified number of copies for deposit, distribution, and delivery, as specified. Existing law requires the California State Library to issue a complete list of state publications issued during the immediately preceding month or quarter, and to print a cumulative list of those publications at the end of each calendar year.

This bill would revise and recast these provisions.

(18) Existing law requires the Regents of the University of California, as a condition for using state funds to handle and maintain Native American human remains and cultural items, to adopt and implement certain policies and procedures relating to, among other things, the culturally appropriate treatment of, and the identification and disposition of, those human remains and cultural items. Existing law requires the regents, as a condition for using state funds to handle and maintain Native American human remains and cultural items, to implement those policies by January 1, 2020.

This bill would change the date by which the regents are conditionally required to implement those policies from January 1, 2020, to January 1, 2021.

(19) Existing law requires the Superintendent of Public Instruction to annually allocate \$3,500,000 to the San Francisco Unified School District for purposes of supporting professional development and leadership training for education professionals.

This bill would repeal that provision.

(20) Existing law requires the State Board of Education to adopt templates for purposes of the local control and accountability plans and annual updates. Existing law requires a school district, county office of education, and charter school to include the information reported in its learning continuity and attendance plan as part of the annual update to the local control and accountability plan for the 2021-22 school year.

This bill would require a school district, county office of education, and charter school to also include the information reported in its local control and accountability plan for the 2019-20 school year in the annual update to the local control and accountability plan for the 2021-22 school year. The bill would require the Superintendent, in consultation with the executive director of the state board, to revise the template for the annual update to the local control and accountability plan before January 31, 2021, to reflect the inclusion of the learning continuity and attendance plan in the annual update to the local control and accountability plan for the 2021-22 school year.

(21) The After School Education and Safety Program Act of 2002, an initiative statute approved by the voters as Proposition 49 at the November 5, 2002, statewide general election, establishes the After School Education and Safety (ASES) Program under which participating public schools receive grants to operate before and after school programs serving pupils in kindergarten or any of grades 1 to 9, inclusive. Existing law establishes the 21st Century High School After School Safety and Enrichment for Teens (High School ASSETS) program to create incentives for establishing after school enrichment programs to provide academic support and safe, constructive alternatives for high school pupils and to support college and career readiness. Existing law authorizes the State Department of Education, during the 2020-21 school year, to waive specified provisions relating to those programs.

This bill would additionally authorize the department, during the 2020-21 school year, to waive certain ASES transportation funding provisions and the requirement that an after school program pursuant to the High School ASSETS program operate for a minimum of 15 hours per week.

(22) Existing law appropriates \$355,227,000 from the Federal Trust Fund, \$4,439,844,000 from the Coronavirus Relief Fund, and \$539,926,000 from the General Fund to the Superintendent for allocation in the 2020-21 fiscal year to eligible local educational agencies to support pupil academic achievement and mitigate learning loss related to COVID-19 school closures. Existing law requires the funds appropriated from the Federal Trust Fund to be used from March 13, 2020, to September 30, 2021, and requires the funds appropriated from the General Fund and Coronavirus Relief Fund to be used from March 1, 2020, to December 30, 2020.

This bill would instead require the funds appropriated from the Federal Trust Fund to be used from March 13, 2020, to September 30, 2022, and the funds appropriated from the General Fund to be used from March 1, 2020, to June 30, 2021. By extending the date to encumber or otherwise use funds appropriated from the Federal Trust Fund and the General Fund, the bill would make an appropriation.

(23) Existing law appropriates \$198,000,000 from the Federal Trust Fund for the 2020-21 fiscal year to the Superintendent for COVID-19 pandemic-related relief and assistance for childcare providers, the families those childcare providers serve, and essential workers. Existing law allocates \$62,500,000 of that amount to reimburse alternative payment program providers with a one-time stipend, as specified.

Existing law requires the Superintendent to establish a fee schedule for families using preschool and childcare and development services. Existing executive orders from the Governor waive family fees from April 4, 2020, to June 30, 2020.

This bill would instead allocate \$31,250,000 to reimburse alternative payment program providers with a one-time stipend and \$31,250,000 to reimbursed state-subsidized childcare providers for providing short-term childcare to eligible children when a provider is closed due to the COVID-19 pandemic. The bill would extend childcare and development services family fee waivers through August 31, 2020.

(24) This bill would appropriate \$80,000,000 from the General Fund to the department to reimburse local educational agencies for costs relating to providing school meals from the months of March 2020 to August 2020, inclusive.

(25) Existing law establishes the California Dyslexia Initiative and requires the department and the California Collaborative for Educational Excellence, with approval from the executive director of the state board, to designate an applicant county office of education to administer the initiative by September 1, 2020. Existing law appropriates \$4,000,000 from the General Fund to the Superintendent to allocate to the designated county office of education for the initiative.

This bill would instead require the department and the California Collaborative for Educational Excellence, with approval from the executive director of the state board, to designate an applicant county office of education to administer the initiative by November 15, 2020. The bill would reduce the appropriation from the General Fund for purposes of the initiative to \$2,000,000 and would appropriate \$2,000,000 from the Federal Trust Fund to the Superintendent for these purposes.

(26) Existing law requires the Commission on Teacher Credentialing to establish standards for the issuance and renewal of credentials, certificates, and permits. Existing law requires a credential applicant to pass various commission-approved assessments and examinations to receive a credential.

This bill would waive the requirement to pass certain assessments before receiving a credential for credential applicants that meet specified criteria, including that the applicant was unable to complete the assessment because of school or testing center closures related to COVID-19.

(27) Existing law requires the governing board of each school district maintaining any of grades 5, 7, and 9 to annually administer to each pupil in those grades a physical performance test designated by the state board.

This bill would waive that requirement for the 2020-21 school year. The bill would require the Superintendent to submit a report with recommendations on the purpose and administration of the test to the appropriate fiscal and policy committees of the Legislature, the Department of Finance, and the state board.

(28) The Leroy F. Greene School Facilities Act of 1998 establishes a program in which the State Allocation Board is required to provide state per-pupil funding for new construction and modernization of school facilities. The act requires the board to require applicant school districts that receive funding under the act to establish a restricted account within the general fund of the school district for the exclusive purpose of providing moneys for ongoing and major maintenance of school buildings and to agree to deposit minimum amounts into the restricted account based on certain calculations.

This bill would exclude from those calculations specified moneys appropriated to mitigate learning loss and to reimburse local educational agencies for school meals program costs resulting from school closures caused by the COVID-19 pandemic.

(29) Existing law requires, as a condition of receiving specified state and federal funding, a local educational agency to ensure that each school of the local educational agency that operates specified programs consolidates any plans that are required by those programs into a single plan, known as the School Plan for Student Achievement (SPSA). Existing law requires a school with a program requiring a SPSA to establish a schoolsite council to develop and approve the SPSA, as provided.

This bill, notwithstanding that requirement, would require single school districts and charter schools, for the 2020-21 school year, to use the stakeholder engagement process for the learning continuity and attendance plan for the adoption of their SPSA.

(30) Existing law appropriates \$200,000 from the General Fund for the 2020-21 fiscal year to the department for the creation of the Young People's Task Force to develop guidance to promote culturally competent interactions between school resource officers and young people on school campuses.

This bill would require the task force to conduct an evaluation of the presence of peace officers and other law enforcement personnel on school campuses and would specify the qualifications and appointment process for members of the task force. The bill would require the task force, by October 1, 2021, to prepare a written report on its findings and recommendations, as provided.

(31) Certain funds appropriated by this bill would be applied toward the minimum funding requirements for school districts and community college districts imposed by Section 8 of Article XVI of the California Constitution.

(32) Existing constitutional provisions require that a statute that limits the right of access to the meetings of public bodies or the writings of public officials and agencies be adopted with findings demonstrating the interest protected by the limitation and the need for protecting that

interest.

This bill would make legislative findings to that effect.

(33) This bill would incorporate additional changes to Sections 102426 and 102430 of the Health and Safety Code proposed by SB 1237 to be operative only if this bill and SB 1237 are enacted and this bill is enacted last.

(34) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

(35) This bill would declare that it is to take effect immediately as a bill providing for appropriations related to the Budget Bill.

The people of the State of California do enact as follows:

SECTION 1. Section 313.3 of the Education Code is amended to read:

313.3. (a) On or before December 31, 2022, the department shall develop a standardized English language teacher observation protocol for use by teachers in evaluating a pupil's English language proficiency, as required by paragraph (2) of subdivision (f) of Section 313.

(b) (1) The protocol shall be designed to be used by teachers to evaluate a pupil's use of English while engaging in academic content learning, including interactive language use with peers.

(2) The protocol shall be designed to allow teachers to assess language practices across a range of proficiency levels in order to help teachers identify pupils' performance along the continuum of progress toward proficiency in English.

(3) The protocol shall be designed to be used for all English learner pupils, including those who have individualized education programs.

(4) The protocol shall be designed for use by content area teachers at all grade levels, English language development teachers, bilingual teachers, and special education teachers, and shall be designed for ease of use by educators.

(5) The protocol shall be aligned to the English language development standards and the performance levels for the English language development test described in Chapter 7 (commencing with Section 60810) of Part 33 of Division 4 of Title 2.

(c) It is the intent of the Legislature that the protocol additionally be useful to all of the following:

(1) Teachers, as a formative assessment tool for purposes of supporting pupils' progress toward proficiency in English during the school year.

(2) Teachers' discussions with parents regarding pupils' progress toward English language proficiency.

(3) Institutions of higher education in the preparation of new teachers.

(d) (1) In developing the protocol, the department shall consult, at a minimum, with current content area teachers at different grade levels, English language development teachers, bilingual teachers, and special education teachers, and with experts with demonstrated experience in observing and documenting pupil academic language practices and in developing and administering assessments for English learners. The department shall ensure that the majority of individuals with whom it consults are currently teaching, credentialed teachers who regularly instruct English learner pupils.

(2) In developing the protocol, the department shall pilot the protocol with educators and pupils, and refine instruments and guidelines as needed.

(3) The department shall also conduct a validation process to ensure the protocol appropriately assesses the intended target language constructs, demonstrates a meaningful relationship to the performance levels for the English language development test and assessed classroom language use, and reflects pupil progress toward attaining targeted constructs.

(e) The department shall provide guidance to school districts, county offices of education, and charter schools on the use of the protocol.

(f) The department shall develop and make available to school districts, county offices of education, and charter schools professional development tools to train teachers on the use of the protocol. These tools may include, but are not limited to, audio and video samples of English learner pupils' language use for the purpose of assisting educators using the protocol in calibrating judgments about observed language use.

SEC. 2. Section 1241 is added to the Education Code, to read:

1241. (a) Due to the COVID-19 pandemic, the provisions described in subdivision (b) are waived or modified, in accordance with this section, during the portion of the 2019-20 school year in which schools were closed due to the pandemic and during the 2020-21 school year.

(b) (1) The authorization pursuant to subparagraph (B) of paragraph (3) of subdivision (i) of Section 1240 for a county superintendent of schools in a county with 200 or more schools that are ranked in any of deciles 1 to 3, inclusive, of the base Academic Performance Index (API), to use a combination of visits and written surveys of teachers for the purpose of determining sufficiency of textbooks and instructional materials in accordance with subparagraph (A) of paragraph (1) of subdivision (a) of Section 60119 and as defined in subdivision (c) of Section 60119 is extended to every county superintendent of schools regardless of the number of schools in the county that are ranked in any of deciles 1 to 3, inclusive, of the base API.

(2) For purposes of the annual report required pursuant to subparagraph (B) of paragraph (2) of subdivision (c) of Section 1240, a county superintendent of schools may rely on information obtained only through means other than a physical visit to the schoolsite, including school administrator or teacher surveys. However, the report shall include a justification indicating why a schoolsite visit was not conducted and an outline of plans to conduct a schoolsite visit as soon as possible, and the county superintendent of schools shall provide an updated report before July 1, 2021.

(3) The requirement in subparagraph (H) of paragraph (2) of subdivision (c) of Section 1240 that the county superintendent of schools annually conduct a visit of schools is waived for any school that does not offer in-person instruction, as defined in Section 43500, from March 2020 to June 2021, inclusive. This waiver applies only for the time during which the school does not provide in-person instruction, and the county superintendent of schools shall make a plan to visit all necessary schoolsites as soon as possible, which must be noted in the outline required pursuant to paragraph (2). If, following the resumption of in-person instruction, a county superintendent of schools is unable to visit a schoolsite in sufficient time to include the observations in the report required pursuant to subdivision (c) of Section 1240, any schoolsite not visited shall be prioritized for a visit as soon as possible during the following school year.

(4) The requirement in clause (iii) of subparagraph (H) of paragraph (2) of subdivision (c) of Section 1240 that 25 percent of the visits required by paragraph (2) of subdivision (c) of Section 1240 be unannounced is waived. An unannounced visit may be undertaken at the discretion of the county superintendent of schools in compliance with any orders or guidance issued by any local or state public health official.

SEC. 3. Section 8209 of the Education Code is amended to read:

8209. (a) If a state of emergency is declared by the Governor, the Superintendent may waive any requirements of this code or regulations adopted pursuant to this code relating to childcare and development programs operated pursuant to this chapter only to the extent that enforcement of the regulations or requirements would directly impede disaster relief and recovery efforts or would disrupt the current level of service in childcare and development programs.

SEC. 5. Section 17199.15 is added to the Education Code, immediately following Section 17199.1, to read:

17199.15. Notwithstanding any other law, if any bonds that were issued for purposes of borrowing pursuant to paragraph (3) of subdivision (a) of Section 17199.1 to fund several financings of working capital for several participating parties under a single resolution remain outstanding, each participating party for which those bonds were issued is ineligible to be a debtor in a case under Chapter 9 of the United States Bankruptcy Code (Chapter 9 (commencing with Section 901) of Title 11 of the United States Code), as that chapter may be amended from time to time, and no governmental officer or organization is or may be empowered to authorize a participating party to be a debtor under that chapter.

SEC. 6. Section 17199.4 of the Education Code is amended to read:

17199.4. (a) Notwithstanding any other law, any participating party, in connection with securing financing or refinancing of projects, or working capital pursuant to this chapter, may, in accordance with this section, elect to provide for funding, in whole or in part, one or more of the following:

(1) Payments on authority bonds.

(2) Payments under credit enhancement or liquidity support agreements in connection with authority bonds.

(3) Amounts pledged or assigned under one or more pledges or assignments to pay authority bonds or obligations under these credit enhancement or liquidity support agreements.

(4) Payments to fund reserves available to pay any of the payments described in paragraphs (1), (2), and (3), exclusively until paid.

(5) Fees and charges contemplated by the instruments of the authority, trustees, tender agents, remarketing agents, credit enhancement and liquidity support providers, and service providers.

(6) Any other costs necessary or incidental to any financing or refinancing conducted under this chapter.

(b) The payments made pursuant to subdivision (a) may be in connection with a financing or refinancing benefiting the participating party itself, one or more other participating parties, or any combination thereof.

(c) To participate under this section, the participating party shall do all of the following:

(1) Elect to participate by an action of its governing board taken in compliance with the rules of that board.

(2) Provide written notice to the Controller, no later than the date of the issuance of the bonds or 60 days before the next payment, whichever is later, of all of the following:

(A) Its election to participate.

(B) A schedule of the payments subject to that election.

(C) The payee or payees of those payments, or the trustee or agent on their behalf to receive those payments.

(D) (i) Payment delivery instructions, which may be by wire transfer or other method approved by the Controller.

(ii) If the method of payment delivery is wire transfer, the participating party shall complete and submit the appropriate authorization form as prescribed by the Controller.

(d) The participating party may amend, supplement, or restate the notice required pursuant to paragraph (2) of subdivision (c) for any reason, including, but not necessarily limited to, providing for new or increased payments. The participating party shall certify in the notice and in any amendment, supplement, or restatement of the notice that each and every payment reflected in the schedule is a payment described in subdivision (a) and the amounts scheduled do not exceed the actual or reasonably estimated payment obligations to be funded pursuant to this section. The participating party shall also represent in the notice that it is not submitting the notice for the purpose of accelerating a participating party's receipt of its apportionments. Nothing in this section prohibits transfer by the recipient of

an apportionment under this section to the participating party submitting the notice of the excess apportionment above the amount needed to fund actual payments where the excess resulted from erroneous estimation of scheduled payments or otherwise.

(e) Upon receipt of the notice required by paragraph (2) of subdivision (c), the Controller shall make an apportionment to the indicated recipient on the date, or during the period, shown in the schedule in accordance with the following:

(1) If the participating party requests transfers in full as scheduled, in the amount of the scheduled transfer or such lesser amount as is available from the sources indicated in subdivision (f).

(2) If the participating party does not request transfers in full as scheduled, in the amount of the anticipated deficiency for the purpose of making the required payment indicated in a written request of the participating party to the Controller and in the amount of the actual shortfall in payment indicated in a written request of the recipient or the participating party to the Controller or whatever lesser amount is available from the sources indicated in subdivision (f).

(3) To the extent funds available for an apportionment are insufficient to pay the amount set forth in a schedule in any period, the Controller shall, if and as requested in the notice, reschedule the payment of all or a portion of the deficiency to a subsequent period.

(4) In making apportionments under this section, the Controller may rely conclusively and without liability on any notice or request delivered under this section, including any notice of request delivered before enactment of the act that adds this paragraph. The Controller may make, but is not obligated to make, apportionments not reflected on a notice or on an amended, supplemented, or restated notice delivered under this section that the Controller receives less than 20 days before when the apportionment would otherwise be required.

(f) The Controller shall make an apportionment under this section only from moneys designated for apportionment to the participating party delivering the notice, and only from one or both of the following:

(1) Any funding apportioned for purposes of revenue limits or the local control funding formula pursuant to Section 42238.02, as implemented by Section 42238.03, to a school district or county office of education without regard to the specific funding source of the apportionment.

(2) Any funding apportioned for purposes of the charter school block grant or the local control funding formula pursuant to Section 42238.02, as implemented by Section 42238.03, to a charter school without regard to the specific funding source of the apportionment.

(g) (1) The amount apportioned for a participating party pursuant to this section shall be deemed to be an allocation to the participating party, and shall be included in the computation of allocation, limit, entitlement, or apportionment for the participating party.

(2) The participating party and its creditors do not have a claim to funds apportioned or anticipated to be apportioned by the Controller pursuant to this section.

(h) (1) The authority may require participation under this section under the terms of any financing or refinancing under this chapter to provide for one or more of the payments described in paragraphs (1), (2), (3), and (4) of subdivision (a). The authority may impose limits on new participation under this section. The authority may require participating parties to apply to the authority for participation. If the authority limits participation under this section, the authority shall consider each of the following priorities in making participation available:

(A) First priority shall be given to participating parties that apply for funding for instructional classroom space under this chapter.

(B) Second priority shall be given to participating parties that apply for funding of modernization of instructional classroom space under this chapter.

(C) Third priority shall be given to participating parties that apply for funding under this chapter for any other eligible costs, as defined in Section 17173.

(2) The authority shall prioritize applications at appropriate intervals.

(3) A school district electing to participate under this section that has applied for revenue bond moneys for purposes of joint venture school facilities construction projects, pursuant to Article 5 (commencing with Section 17060) of Chapter 12, shall not be subject to the priorities set forth in paragraph (1).

(i) This section shall not be construed to make the State of California liable for any payments within the meaning of Section 1 of Article XVI of the California Constitution.

(j) A school district that has a qualified or negative certification pursuant to Section 42131, or a county office of education that has a qualified or negative certification pursuant to Section 1240, may only participate under this section to intercept payments for short-term financings.

(k) This section does not obligate the State of California to make available the sources of apportionment under subdivision (f) in any

amount or at any time or, except as provided in this section, to fund any payment described in this section. The addition of this subdivision is intended solely to clarify existing law.

SEC. 7. Section 17391 of the Education Code is amended to read:

(2) If the local educational agency has submitted an appeal to the Education Audit Appeals Panel pursuant to subdivision (d) of Section 41344, the Office of Public School Construction shall not recover funds until following the determination of the appeal.

(3) A local educational agency may use any local fund source to pay the disallowed amount pursuant to clause (iii) of subparagraph (B) of paragraph (2) of subdivision (c) so long as there is no legal prohibition regarding the use of those funds for this purpose.

(4) A local educational agency may request from the Office of Public School Construction a repayment plan within 90 days of receiving the final audit report, or within 30 days of withdrawing or receiving a final determination regarding an appeal pursuant to subdivision (d) of Section 41344 and subdivision (b) of Section 41344.1, as applicable. The Office of Public School Construction and the Director of Finance, or their designees, jointly shall establish a plan for payment. The payment plan shall be established in accordance with the following:

(A) If the executive officer of the Office of Public School Construction and the Director of Finance, in consultation with the department, concur that repayment of the disallowed amount in the current fiscal year would constitute a severe financial hardship for the local educational agency, they may jointly approve a plan of equal annual payments over a period of up to eight years. The plan may include interest on each year's outstanding balance at the rate earned on the state's Pooled Money Investment Account during that year. The executive officer of the Office of Public School Construction and the Director of Finance jointly shall establish this plan. At the time the local educational agency is notified, the Controller also shall be notified of the plan by the executive officer of the Office of Public School Construction. The Controller shall withhold the annual amount established pursuant to the plan from the local educational agency's principal apportionment or Education Protection Account payments.

(B) Notwithstanding subparagraph (A), if the executive officer of the Office of Public School Construction and the Director of Finance, in consultation with the department, concur that repayment of the disallowed amount over an eight-year period would require the local educational agency to request an emergency apportionment pursuant to Article 2 (commencing with Section 41320) of, and Article 2.5 (commencing with Section 41325) of, Chapter 3, they may approve a plan of equal annual payments over a period of up to 20 years. The plan shall include interest on each year's outstanding balance at the rate earned on the state's Pooled Money Investment Account during that year. The Controller shall withhold the annual amount established pursuant to the plan from the local educational agency's principal apportionment or Education Protection Account payments.

(C) If a payment plan submitted pursuant to this section is not approved by the executive officer of the Office of Public School Construction and the Director of Finance, in consultation with the department, or is not requested by the local educational agency, the executive officer of the Office of Public School Construction shall invoice the local educational agency for the entire disallowed amount. If the local educational agency does not remit payment for the invoice within 120 days of issuance, the executive officer of the Office of Public School Construction shall request that the Controller withhold the entire disallowed amount from the local educational agency's principal apportionment or Education Protection Account payments.

(D) (i) Funds recovered by the executive officer of the Office of Public School Construction or withheld by the Controller pursuant to this section shall be deposited into the appropriate state school facilities fund, as established in the State Treasury pursuant to Section 17070.40 or 17070.41, as applicable.

(ii) Funds remitted to the Office of Public School Construction by a local educational agency from local fund sources, as authorized by paragraph (3), shall be deposited into the appropriate state school facilities fund, as established in the State Treasury pursuant to Section 17070.40 or 17070.41, as applicable.

(e) As used in this section, "audit or review" and "local educational agency" shall have the same meaning as the terms are defined in paragraphs (1) and (2) of subdivision (e) of Section 41344.

(f) The State Allocation Board shall not waive all or any part of this section, any grant agreement or provisions of a grant agreement signed by a local educational agency that receives any funds pursuant to the Leroy F. Greene School Facilities Act of 1998 (Chapter 12.5 (commencing with Section 17070.10) of Part 10 of Division 1 of Title 1), or any regulation adopted that implements a provision of this section.

(g) In any appeal filed pursuant to Section 41344 and this section, the Office of Public School Construction, the Department of Finance, and the department may timely move to intervene as a party.

(h) If the Office of Public School Construction chooses not to intervene in an appeal, the administrative law judge conducting the hearing, or the Education Audit Appeals Panel, may request that the Office of Public School Construction issue and file in the appeal an objective interpretation of any applicable law, regulation, or term of the grant agreement within 30 days of the request or such longer period as the administrative law judge or the Education Audit Appeals Panel deems reasonable. The Office of Public School Construction's filing shall not argue or seek to resolve issues of fact, but may state how a particular law, regulation, or grant agreement term applies to competing factual contentions. The agent of the Office of Public School Construction shall be precluded from acting as a party once a request pursuant to this subdivision is made.

(i) Notwithstanding subdivision (a), this section shall not apply to any school facilities project that was apportioned before July 1, 2017.

Any positive adjustment to average daily attendance for the 2019-20 fiscal year in the second or annual period attendance report submitted to the Superintendent after August 17, 2020, shall be substantiated by concurrence from an independent auditor.

(2) The 2019-20 reported average daily attendance used for purposes of calculating apportionments pursuant to subdivision (d) of Section 42238.02 in the 2020-21 fiscal year shall exclude the average daily attendance resulting from pupils attending schools funded pursuant to Article 4 (commencing with Section 42280) of Chapter 7 of Part 24.

(3) The 2019-20 reported average daily attendance used for purposes of calculating apportionments in the 2020-21 fiscal year shall be adjusted for any loss or increase in average daily attendance due to a school district reorganization.

(4) If the Superintendent has been notified pursuant to Section 47604.32 that a charter school has ceased operation during or after the 2019-20 school year and did not provide any instruction in the 2020-21 school year, the Superintendent shall increase the average daily attendance determined pursuant to paragraph (1) for the sponsoring local educational agency, as defined in subdivision (i) of Section 47632, by the average daily attendance sponsored by that local educational agency as reported by the charter school for the 2019-20 school year.

(c) For the 2020-21 fiscal year, a local educational agency shall satisfy the annual instructional day requirements described in Sections 41420, 46200.5, and 46208, and in Section 11960 of Title 5 of the California Code of Regulations through in-person instruction or a combination of in-person instruction and distance learning pursuant to this part.

(d) (1) For the 2020-21 fiscal year, a local educational agency shall not be required to offer the annual instructional minutes that it would otherwise have offered pupils to meet the requirements of Sections 46201.5, 46207, and 47612.5, or the implementing regulations for those sections.

(2) For the 2020-21 fiscal year, a local educational agency shall not be required to offer the minimum instructional minutes in physical education required pursuant to Sections 51210, 51220, 51222, and 51223.

(e) For the 2020-21 school year, instructional minutes shall be determined as follows:

(1) For in-person instruction, instructional minutes shall be based on time scheduled under the immediate physical supervision and control of an employee of the local educational agency who possesses a valid certification document, registered as required by law.

(2) For distance learning, instructional time shall be based on the time value of assignments as determined, and certified to, by an employee of the local educational agency who possesses a valid certification document, registered as required by law.

(3) For a combined day of instruction delivered through both in-person instruction and distance learning, time scheduled under the immediate supervision of an employee of the local educational agency who possesses a valid certification document can be combined with assignments made under the general supervision of an employee of the local educational agency who possesses a valid certification document as registered by law to meet the equivalent of a minimum day of instruction.

(f) For the 2020-21 school year, the process by which a local educational agency receives credit for a material decrease in average daily attendance for apportionment pursuant to Section 46392 due to an event described in Section 46392 that occurs during the 2020-21 fiscal year is suspended for all local educational agencies.

(g) Except for a local educational agency with apportionments calculated pursuant to Section 43505, for purposes of any calculations that would use average daily attendance, the Superintendent, consistent with subdivision (b), shall use the local educational agency's average daily attendance in the 2019-20 school year in place of its average daily attendance in the 2020-21 school year.

(h) (1) For a divided charter school, where the restructured portion of the charter school is beginning instruction in the 2020-21 school year, average daily attendance for the 2019-20 school year shall be provided by the original charter school in a format and according to a timeline prescribed by the Superintendent. The total average daily attendance attributable to the restructured and remaining portions of a divided charter school shall not exceed the total average daily attendance of the original charter school for the 2019-20 fiscal year and shall be used for purposes of any calculations for the affected charter schools that would use average daily attendance consistent with subdivision (b).

(2) The definitions in Section 47654 apply for purposes of this subdivision.

SEC. 14. Section 43502.5 is added to the Education Code, to read:

43502.5. Notwithstanding paragraph (4) of subdivision (e) of Section 47605 or paragraph (4) of subdivision (e) of Section 47605.6, and except for existing pupils of the charter school, for the 2020-21 school year, if the enrollment of a charter school exceeds the charter school's capacity due to the calculation of attendance pursuant to Section 43502, the charter school shall determine attendance pursuant to a public random drawing in accordance with subparagraph (B) of paragraph (2) of subdivision (e) of Section 47605 or subparagraph (B) of paragraph (2) of subdivision (e) of Section 47605.6.

(6) Daily live interaction with certificated employees and peers for purposes of instruction, progress monitoring, and maintaining

school connectedness. This interaction may take the form of internet or telephonic communication, or by other means permissible under public health orders. (c) Pursuant to Sections 49550 and 47613.5, school districts, county offices of education, and charter schools shall provide nutritionally adequate meals for pupils who are eligible for free and reduced-price meals, whether engaged in in-person instruction or distance learning, contingent upon the department receiving an approved waiver from the United States Department of Agriculture, for each day of the scheduled school year.

(d) (1) Notwithstanding Section 51512 or any other law, the prior consent of the teacher or the principal of a school is not required for the adoption or implementation of the use of synchronous or asynchronous video for purposes of distance learning provided pursuant to this section.

(2) Except as required by the local educational agency for purposes of distance learning provided pursuant to this section, no person may make, without the prior consent of the teacher and principal of the school, any audio, video, or digital recording of a local educational agency's live or synchronous distance learning instruction.

For purposes of this section, for charter schools, distance learning shall be provided by a certificated employee pursuant to the requirements of Sections 47605, 47605.4, and 47605.6.

(d) (1) Each local educational agency shall document daily participation for each pupil on each schoolday, in whole or in part, for which distance learning is provided. A pupil who does not participate in distance learning on a schoolday shall be documented as absent for that schoolday.

(2) For purposes of this section, daily participation may include, but is not limited to, evidence of participation in online activities, completion of regular assignments, completion of assessments, and contacts between employees of the local educational agency and pupils or parents or guardians.

(e) Each local educational agency shall ensure that a weekly engagement record is completed for each pupil documenting synchronous or asynchronous instruction for each whole or partial day of distance learning, verifying daily participation, and tracking assignments.

(f) (1) A pupil who does not participate daily in either in-person instruction pursuant to subdivision (b) or distance learning pursuant to subdivision (d) shall be deemed absent by the local educational agency. A local educational agency shall use documentation of the absence for purposes of reporting its chronic absenteeism rates in its local control and accountability plan.

(2) Each local educational agency shall develop written procedures for tiered reengagement strategies for all pupils who are absent from distance learning for more than three schooldays or 60 percent of the instructional days in a school week. These procedures shall include, but are not limited to, verification of current contact information for each enrolled pupil, daily notification to parents or guardians of absences, a plan for outreach from the school to determine pupil needs including connection with health and social services as necessary and, when feasible, transitioning the pupil to full-time in-person instruction.

(g) Each school shall regularly communicate with parents and guardians regarding a pupil's academic progress.

(h) The Controller shall include instructions necessary to enforce the requirements of this section in the 2020-21 audit guide required by Section 14502.1.

(2) For a local educational agency that does not meet the requirements in subdivision (d), (e), or (f), the Superintendent shall withhold from the local educational agency's local control funding formula grant apportionment the percentage of days out of compliance

multiplied by the derived value of average daily attendance, all multiplied by the average daily attendance of each affected grade level. For purposes of this paragraph, the percentage of days out of compliance is equivalent to the number of days out of compliance divided by the total number of instructional days required to be offered.

(3) A local educational agency that provides distance learning shall not be penalized for instruction provided before September 1, 2020, that fails to meet the requirements of this section.

SEC. 17. Section 43505 of the Education Code is amended to read:

43505. (a) (1) For purposes of calculating apportionments for the 2020-21 fiscal year and for any other calculations that would be based on average daily attendance in the 2020-21 school year, for all newly operational charter schools that are authorized by the governing board of a school district or county board of education on or before June 30, 2020, or approved by the state board at its July 8 and 9, 2020, meeting and that are beginning instruction in the 2020-21 school year, the department shall use the certified enrollment of that charter school as of Information Day, October 7, 2020, based on data reported in the California Longitudinal Pupil Achievement Data System pursuant to Chapter 10 (commencing with Section 60900) of Part 33 of Division 4, reduced by either the statewide average rate of absence for elementary school districts for kindergarten and grades 1 to 8, inclusive, or the statewide average rate of absence for high school districts for grades 9 to 12, inclusive, as applicable, as calculated by the department for the prior fiscal year with the resultant figures and rates rounded to the nearest tenth.

(2) A newly operational charter school eligible for funding pursuant to paragraph (1) shall receive advance funding pursuant to subdivision (a) of Section 47652 for the months of July 2020 to January 2021, inclusive. Monthly payments for the remainder of the 2020-21 fiscal year shall be drawn pursuant to Sections 14041, 14041.5, and 14041.6, consistent with the certifications made pursuant to Sections 41332 and 41335.

(b) (1) (A) For purposes of calculating apportionments for the 2020-21 fiscal year and for any other calculations that would be based on average daily attendance in the 2020-21 school year, a continuing local educational agency shall be eligible for an apportionment calculation pursuant to paragraph (2) if it is a charter school, school district, or county office of education with growth in overall pupil enrollment from its actual 2019-20 level to its projected 2020-21 level, as documented in its most recent 2020-21 budget adopted by the governing board or body of the local educational agency on or before June 30, 2020, or in its adopted 2019-20 second interim report. If a local educational agency does not document or project enrollment growth in its most recent 2020-21 budget adopted by the governing board or body of the local educational agency on or before June 30, 2020, or in its adopted 2019-20 second interim report, it may use overall pupil average daily attendance growth from its actual 2019-20 level to its projected 2020-21 level, as documented in its most recent 2020-21 budget adopted by the governing board or body of the local educational agency on or before June 30, 2020, or in its adopted 2019-20 second interim report to establish eligibility for an apportionment calculation pursuant to paragraph (2).

(B) A local educational agency is not eligible for an apportionment calculation pursuant to paragraph (2) if its most recent 2020-21 budget adopted by the governing board or body of the local educational agency on or before June 30, 2020, or its adopted 2019-20 second interim report does not explicitly show growth in overall pupil enrollment or average daily attendance from its actual 2019-20 level to its projected 2020-21 level.

(2) For a local educational agency that is eligible pursuant to paragraph (1) and meets the requirements of paragraph (3), the department shall use the lesser of subparagraph (A) or (B) for purposes of calculating apportionments for the 2020-21 fiscal year. Apportionments calculated pursuant to this paragraph shall exclude average daily attendance attributed to a local educational agency pursuant to paragraph (4) of subdivision (b) of Section 43502.

(A) The certified enrollment of the local educational agency as of Information Day, October 7, 2020, based on data reported in the California Longitudinal Pupil Achievement Data System pursuant to Chapter 10 (commencing with Section 60900) of Part 33 of Division 4, reduced by either the statewide average rate of absence for elementary school districts for kindergarten and grades 1 to 8, inclusive, or the statewide average rate of absence for high school districts for grades 9 to 12, inclusive, as applicable, as calculated by the department for the prior fiscal year with the resultant figures and rates rounded to the nearest tenth.

(B) (i) If enrollment growth is used to establish eligibility pursuant to paragraph (1), the 2020-21 enrollment of the local educational agency projected in its most recent 2020-21 budget adopted by the governing board or body of the local educational agency on or before June 30, 2020, or in its adopted 2019-20 second interim report, reduced by either the statewide average rate of absence for elementary school districts for kindergarten and grades 1 to 8, inclusive, or the statewide average rate of absence for high school districts for grades 9 to 12, inclusive, as applicable, as calculated by the department for the prior fiscal year with the resultant figures and rates rounded to the nearest tenth.

(ii) If average daily attendance growth is used to establish eligibility pursuant to paragraph (1), the 2020-21 average daily attendance of the local educational agency projected in its most recent 2020-21 budget adopted by the governing board or body of the local educational agency on or before June 30, 2020, or in its adopted 2019-20 second interim report.

(C) Under no circumstances shall an apportionment calculated for a local educational agency pursuant to this paragraph be less than the apportionment that would be calculated pursuant to subdivision (b) of Section 43502.

(3) A local educational agency that chooses to be funded pursuant to this subdivision shall provide all of the following to the

department by November 6, 2020:

(A) A request for the department to calculate apportionments for the 2020-21 fiscal year pursuant to this subdivision.

If the 2020-21 budget is provided, it shall have been adopted by the governing board or body of the local educational agency on or before June 30, 2020, and shall be the most recently adopted budget on or before June 30, 2020.

(ii) A local educational agency that does not submit the requested supporting documentation demonstrating projected growth in enrollment or average daily attendance shall be funded pursuant to subdivision (b) of Section 43502 for the 2020-21 fiscal year.

(C) The superintendent or equivalent officer and the president of the governing board or body of the local educational agency shall both attest under penalty of perjury that documentation submitted pursuant to subparagraphs (A) and (B) is true and correct and is the most recent budget adopted by the governing board or body of the local educational agency on or before June 30, 2020, or is the 2019-20 second interim report adopted by the governing board or body of the local educational agency.

(4) On or before October 2, 2020, the department shall post on its internet website an application for continuing local educational agencies to request an apportionment calculation in the 2020-21 fiscal year pursuant to this subdivision.

(5) Funding provided pursuant to this subdivision shall be reflected in the certifications made by the Superintendent pursuant to Section 41332 and 41335 and monthly payments pursuant to Sections 14041, 14041.5, and 14041.6, commencing with the payment made in February 2021.

(c) (1) A nonclassroom-based charter school described in Section 47612.5 as of the 2019-20 second principal apportionment certification shall not be eligible for an apportionment calculation pursuant to subdivision (b).

(2) For purposes of calculating apportionments for the 2020-21 fiscal year and for any other calculations that would be based on average daily attendance in the 2020-21 school year, for a nonclassroom-based charter school described in Section 47612.5 as of the second principal apportionment certification for the 2019-20 fiscal year, the department shall use the nonclassroom-based charter school's average daily attendance in the 2019-20 fiscal year pursuant to subdivision (b) of Section 43502.

(3) For the 2020-21 school year, a nonclassroom-based charter school described in Section 47612.5 as of the second principal apportionment certification for the 2019-20 fiscal year shall adopt a learning continuity and attendance plan pursuant to Section 43509, and shall not be required to adopt a local control and accountability plan pursuant to Section 47606.5.

(4) A nonclassroom-based charter school described in Section 47612.5 as of the second principal apportionment certification for the 2019-20 fiscal year shall continue to comply with all of the statutory requirements in Article 5.5 (commencing with Section 51745) of Chapter 5 of Part 28 of Division 4 and the implementing regulations for that article.

higher education expense for any reason, including the death or disability of the beneficiary, before the beneficiary turns 26 years of age, all contributions made for the beneficiary into the KIDS Account and any earnings from those moneys shall be forfeited and deposited into the fund for the program.

(2) Notwithstanding paragraph (1), subject to available funding, the board may establish an appeal process to allow a beneficiary to use the moneys designated for the beneficiary in a KIDS Account after the beneficiary turns 26 years of age.

(3) All contributions made into a KIDS Account for a child who has opted out of the program pursuant to subdivision (b), including any investment earnings attributed to the amount of the child's seed deposit since the date of the deposit as calculated by the board, shall be forfeited and deposited into the fund for the program in a timely manner.

SEC. 65. Section 119 of Chapter 24 of the Statutes of 2020 is amended to read:

Sec. 119.

(a) The Legislature finds and declares all of the following:

(1) (A) Pupils with dyslexia and other forms of specific learning disabilities often go undiagnosed until the pupil is failing in school, while many pupils are never diagnosed and never receive services. Early identification and intervention with pupils showing signs of dyslexia are critical for improving pupil outcomes.

(B) The most effective treatment for pupils who struggle with reading and related language problems is early diagnosis and skilled teaching. For that reason, it is critical that educators receive evidence-based practices and strategies informed by research to reduce the impact on long-term educational outcomes.

(C) The California Dyslexia Guidelines, developed by the State Department of Education pursuant to Section 56335 of the Education Code, as added by Chapter 647 of the Statutes of 2015 (Assembly Bill 1369 of the 2015-16 Regular Session), provides guidelines for educators, parents, and other stakeholders in identifying, assessing, and supporting pupils with dyslexia. While these guidelines created a road map for supporting pupils with dyslexia, the guidelines were developed before the establishment of the statewide system of support and are not integrated into those supports.

(D) To ensure existing research and available resources lead to improved outcomes for these pupils, the state must invest in a statewide effort to build upon the California Dyslexia Guidelines and to disseminate the knowledge and information of best practices throughout the statewide system of support.

(2) The statewide system of support established pursuant to Section 52059.5 of the Education Code should include expertise and resources to help school districts, county offices of education, and charter schools improve their ability to identify signs of dyslexia and other specific learning disabilities as early as possible and to provide evidence-based supports and services to pupils once identified.

(b) The California Dyslexia Initiative is hereby established for all of the following purposes:

(1) To build capacity in the statewide system of support for school districts, county offices of education, and charter schools to provide early intervention services and supports for pupils with specific learning disabilities, such as dyslexia, with a focus on improving outcomes for pupils in all education settings.

(2) To identify effective models for diagnosis and treatment of specific learning disabilities.

(3) To develop effective professional development for educators on evidence-based instruction and strategies informed by research to reduce the impact on long-term educational outcomes.

(4) To develop effective partnerships between school districts, county offices of education, and charter schools in using the statewide system of support structure administered by the California Collaborative for Educational Excellence and the resources of the State Department of Education to disseminate lessons learned from the capacity built pursuant to paragraph (1) and the models identified in paragraph (2).

(5) To disseminate the resources, information, and models identified in paragraphs (1) to (4), inclusive.

(c) By November 15, 2020, the State Department of Education and the California Collaborative for Educational Excellence, with approval from the executive director of the State Board of Education, shall designate an applicant county office of education to administer the California Dyslexia Initiative in direct consultation with the State Department of Education, the California Collaborative for Educational Excellence, and the postsecondary educational institution selected pursuant to subdivision (d). For this work, the designated county office of education shall demonstrate a willingness and capacity to do all of the following:

(1) Work collaboratively with the State Department of Education, the California Collaborative for Educational Excellence, and the postsecondary educational institution selected pursuant to subdivision (d) to further the purposes of the California Dyslexia Initiative described in subdivision (b).

(2) Communicate regularly with the State Department of Education and the California Collaborative for Educational Excellence.

(3) In partnership with the California Collaborative for Educational Excellence, document the outcomes of the activities described in

this section throughout the duration of the California Dyslexia Initiative to ensure the resources, research, and professional development models that are developed are available throughout the statewide system of support and align with other statewide initiatives.

(4) Play a leadership role in the California Dyslexia Initiative.

(d) The designated county office of education shall contract with a California postsecondary educational institution, selected in consultation with the executive director of the State Board of Education, to expand the state's dyslexia and specific learning disabilities early identification and evidence-based best practices for supports and services in furtherance of the California Dyslexia Initiative. The postsecondary educational institution shall be selected no later than December 1, 2020.

(e) The designated county office of education and the selected postsecondary educational institution shall identify existing evidence-based resources, professional development activities, and other efforts currently available at the state, federal, and local levels, and develop new evidence-based resources and activities designed to help local educational agencies across the state identify and provide services and supports to pupils with specific learning disabilities, as defined in Section 56337 of the Education Code, such as dyslexia. The identified and developed resources and activities shall be able to accomplish, at a minimum, all of the following:

- (1) Develop professional development through train-the-trainer models or online training modules.
- (2) Provide technical assistance to local educational agencies.
- (3) Develop a network of educators who can provide coaching and training to other local educational agencies.
- (4) Develop evaluation tools to measure the effectiveness of identified evidence-based strategies.

(2) The sum of two million dollars (\$2,000,000) is hereby appropriated from the Federal Trust Fund to the Superintendent of Public Instruction to allocate to the designated county office of education for the California Dyslexia Initiative.

(3) Of the total amount appropriated pursuant to paragraphs (1) and (2), the designated county office of education may use up to five hundred thousand dollars (\$500,000) to administer the program.

(4) The designated county office of education shall submit an expenditure plan for the funds allocated pursuant to this subdivision to the Department of Finance for approval by January 20, 2021, that includes the estimated allocation to the postsecondary educational institution. The approved expenditure plan shall become operative no sooner than 30 days after notification is provided in writing to the Joint Legislative Budget Committee. The designated county office of education shall encumber or expend the funds appropriated pursuant to this subdivision by June 30, 2023.

(g) For purposes of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by paragraph (1) of subdivision (f) shall be deemed to be "General Fund revenues appropriated for school districts," as defined in subdivision (c) of Section 41202 of the Education Code, for the 2020-21 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code, for the 2020-21 fiscal year.
